More stories from August's issue of THE BEE!

The subject was "school food"

It's usually nutritious, but for decades it's been the punch line for jokes – "school food".

Eastmoreland residents Mark and Brenda Saling, who have children in Duniway School, hosted friends and neighbors in their home recently to discuss ways of improving school-provided food, and to support children's health and academic success. The event was one of a series locally organized by Metropolitan Family Service.

Shown here, from left, are Hostess Brenda Saling, with Metropolitan Family Service COO Judy Strand, and conversation leaders Caitlin Blethen and Michelle Markesteyn Ratcliffe. *(Photo courtesy Metropolitan Family Service)*
