

Scott Losk, PhD, Principal Investigator

Scott Losk, PhD, obtained a doctorate at Fuller Graduate School of Psychology in 1989, and did a post-doctoral fellowship in medical psychology at Oregon Health Sciences University.

He has been in private practice since 1990, with an emphasis on clinical psychology, neuropsychology, and geriatric psychology.

Dr. Losk joined Summit Research Network, formerly Pacific Northwest Clinical Research Center, also in 1990. He has been an investigator in over 50 clinical trials evaluating treatments of disorders of the central nervous system, and the principal investigator in over 25 clinical trials evaluating treatments for Alzheimer's Disease.

Dr. Losk is active in the Alzheimer's community providing talks and presentations to caregivers and other professionals.
